How can this Seminar benefit You?

The cloning and the therapeutic use of stem cells pose for our society some of the greatest ethical challenges it has ever had to face. These issues are about to be debated again during the Parliamentary review of the Human Cloning and Research Involving Human Embryos legislation hence it is vital to acquaint ourselves with the science and the ethical principles governing our decisions.

Who could benefit from this conference?

Religious Education Co-ordinators
Science Teachers
Legal Studies Teachers
Ministers of Religion
Interested members of the Public

Also available this new book:

Stem Cells Science, Medicine, Law &

Ethics

by

Norman Ford & Michael Herbert,

Published by St Pauls Publications,

2003.

This book reviews the scientific, medical, legal, therapeutic and ethical aspects of stem cell research and technology needed to form considered views about this rapidly developing field from a Christian perspective; and it is enhanced by a comprehensive glossary of terms and select listings of printed and internet resources.
